EXECUTIVE SUMMARY

Strategic account leader with 20+ years at Microsoft, combining an engineering foundation with executive commercial leadership in healthcare and life sciences. Executive owner of Microsoft's relationship with a top-five global pharmaceutical company, leading C-suite strategy across cloud, data, security, Microsoft 365, Dynamics 365 and AI, and a 30+ person matrixed virtual team.

Grew the account 5x since 2017 (about 20% revenue CAGR) and structured strategic agreements exceeding $500M in total contract value. Two-time Platinum Club and three-time Gold Club recipient with 100%+ quota attainment in 9 fiscal years. Trusted advisor to regulated enterprises moving generative AI and AI agents from experimentation to governed, production-scale business outcomes.

CORE EXPERTISE

Enterprise Leadership: C-suite engagement, executive sponsorship, executive business reviews (EBRs/QBRs), stakeholder management, matrixed virtual-team leadership, cross-functional orchestration

Strategic Growth: strategic account management, account planning, multi-year account strategy, complex deal structuring, contract negotiation, enterprise agreements, revenue growth, forecasting, cloud consumption growth

AI & Cloud Transformation: generative AI, agentic AI, AI agents, Microsoft Copilot, Microsoft Azure, Microsoft 365, Dynamics 365, cloud architecture, data platforms, cybersecurity, AI adoption, change management, value realization

Life Sciences: pharmaceutical industry, GxP-regulated environments, regulated AI governance, R&D, manufacturing, commercial operations

Ecosystem: global systems integrators (GSIs), ISV partners, co-sell strategy, partner go-to-market

PROFESSIONAL EXPERIENCE

Strategic Account Director, Healthcare & Life Sciences | Microsoft | Feb 2017 – Present

Executive owner of Microsoft's relationship with a top-five global pharmaceutical company.

- Grew the account 5x since 2017 (about 20% revenue CAGR), expanding Microsoft's share of the customer's technology spend across Azure, data, security, Microsoft 365 and Dynamics 365.
- Structured and negotiated strategic agreements exceeding $500M in total contract value, balancing customer outcomes, transformation investment and commercial risk.
- Own relationships with the CIO, CDO and senior business leaders, with CEO-level engagement, setting the multi-year technology and AI strategy and running executive business reviews aligned to R&D, manufacturing and commercial priorities.
- Scale generative AI and AI agents toward governed enterprise deployment, aligning architecture, data, security, compliance and adoption.
- Lead a 30+ person matrixed virtual team spanning specialist sales, engineering, customer success, support, services and global systems integrator partners, accountable for revenue, cloud consumption, forecast accuracy and customer satisfaction.

Senior Account Executive, Enterprise Accounts | Microsoft | Apr 2011 – Jan 2017

- Delivered $20M+ in average annual revenue, owning executive relationships, account strategy and commercial execution for multinational enterprise customers across multiple industries.
- Led complex enterprise agreement renewals and expansions spanning Office 365, Azure and Dynamics.
- Orchestrated sales, technical, services and partner teams around customer priorities, technology adoption and long-term account growth.

Account Technology Strategist, Enterprise Accounts | Microsoft | Jul 2008 – Mar 2011

- Advised CIOs and IT leadership across multinational enterprise accounts.
- Developed multi-year technology roadmaps spanning infrastructure modernization, virtualization, collaboration and emerging cloud technologies.
- Drove adoption and value-realization programs supporting enterprise agreement renewals and expansion.

Partner Technology Strategist | Microsoft | Oct 2006 – Jul 2008

- Increased partner-influenced revenue by 150% by building go-to-market strategies with systems integrators and ISV partners.
- Developed technical relationships with partner and customer CTOs and CIOs to shape joint solutions and opportunities.
- Enabled partner technical teams on the Microsoft platform, accelerating solution readiness and enterprise deployments.

IT Solutions Architect | Systematica Group | Jul 2005 – Oct 2006

- Led architecture and technical strategy for complex enterprise IT solutions in pre-sales engagements.

IT Operations Manager / Team Lead | Allied Testing | Apr 2002 – Jul 2005

- Led a team of 8 systems engineers responsible for enterprise IT operations across physical and virtual environments.
- Introduced automation and process improvements that increased operational efficiency by 25%.

SELECTED PROJECTS

- **QuantumInvestor.net:** creator of agentic generative-AI investment research platform.
- **gavrilov.ai:** creator of an open-source personal site featuring an AI assistant built on Google Gemini models.
