

Michael Gavrilov

Strategic Account Director, Global Enterprise — Microsoft

Engineer at heart. Strategic account leader by trade.

New York City, NY | contact@gavrilov.ai | [linkedin.com/in/mgavrilov](https://www.linkedin.com/in/mgavrilov) | gavrilov.ai

EXECUTIVE SUMMARY

Engineer turned strategic account leader with 20+ years at Microsoft. I lead Microsoft's strategic partnership with a top-5 global pharmaceutical company, owning the C-suite relationship and multi-year strategy across Cloud, AI, Data, Security and Modern Work. I structure complex multi-year agreements exceeding \$500M, orchestrate large virtual teams, and help regulated enterprises move AI from experimentation to governed, production-scale outcomes.

CORE EXPERTISE

Leadership: C-Suite Executive Partnerships · Executive Governance & QBRs · Virtual Team Leadership

Commercial: Multi-Year Account Strategy · Complex Deal Structuring & Negotiation · Revenue & Forecast Management

Technology: Enterprise & Agentic AI Transformation · Cloud & AI Architecture · Regulated-Industry (GxP) Environments

Builder: QuantumInvestor.net (generative-AI investment research experiment) · gavrilov.ai (open-source site with AI assistant)

PROFESSIONAL EXPERIENCE

Strategic Account Director, Healthcare & Life Sciences · Microsoft

2017 – Present

Executive owner of a top-5 global pharmaceutical account, one of Microsoft's strategic HLS relationships

- Own C-suite relationships and the multi-year technology and AI strategy across Azure, Data, Security, Modern Work and Business Applications.
- Grew the strategic account **~5x since 2017 (~20% revenue CAGR)**, expanding Microsoft's share of the customer's technology spend.
- Structure strategic agreements exceeding **\$500M in total contract value**, balancing customer outcomes, transformation investments, risk and long-term partnership economics.
- Scale generative and agentic AI from experimentation to enterprise deployment, navigating the technical, governance and organizational complexity of regulated environments.
- Lead a **30+ person virtual team** spanning specialist sales, engineering, customer success, support, services and global system integrator partners.
- Establish executive governance and quarterly business reviews with CIO, CDO and business leadership, aligning Microsoft roadmaps with R&D, manufacturing and commercial priorities.

Recognition: Platinum Club · 100% attainment

Senior Account Executive, Enterprise Accounts · Microsoft

2011 – 2017

- Owned executive relationships, account strategy and commercial execution for multinational enterprise customers across multiple industries, delivering **\$20M+ average annual revenue**.
- Led complex enterprise agreement renewals and expansions spanning Office 365, Azure, Dynamics and Microsoft cloud services.
- Orchestrated sales, technical, services and partner teams around customer priorities, technology adoption and long-term account growth.

Recognition: Gold Club · 100% attainment

Account Technology Strategist, Enterprise Accounts · Microsoft

2008 – 2011

- Served as technology strategist and trusted advisor to CIOs and IT leadership across multinational enterprise accounts.
- Developed multi-year technology roadmaps spanning infrastructure modernization, virtualization, collaboration and emerging cloud technologies.
- Drove adoption and value-realization programs supporting enterprise agreement renewals and expansion.

Partner Technology Strategist · Microsoft

2006 – 2008

- Built go-to-market strategies with systems integrators and ISV partners, increasing **partner-influenced revenue by 150%**.
- Developed technical relationships with partner and customer CTOs and CIOs to shape joint solutions and opportunities.
- Enabled partner technical teams on the Microsoft platform, accelerating solution readiness and enterprise deployments.

Earlier Career

2002 – 2006

- IT Solutions Architect, Systematica Group** (2005–2006) — led architecture and technical strategy for complex enterprise IT solutions in pre-sales engagements.
- IT Operations Manager / Team Lead, Allied Testing** (2002–2005) — led 8 systems engineers; automation and process improvements raised operational efficiency 25%.
