PROFESSIONAL EXPERIENCE

Strategic Account Director, Healthcare & Life Sciences | Microsoft | Feb 2017 – Present

Executive owner of Microsoft's relationship with a top-five global pharmaceutical company.
Recognition: Two-time Platinum Club, three-time Gold Club · 100%+ quota attainment in 9 fiscal years

- Grew the account **5× since 2017 (~20% revenue CAGR)** across Azure, data, security, Microsoft 365 and Dynamics 365.
- Structured agreements exceeding **$500M in total contract value**, balancing transformation investment and commercial risk.
- Own CIO, CDO and senior business relationships, with CEO-level engagement; set technology and AI strategy through executive governance and QBRs.
- Scale generative and agentic AI toward governed enterprise deployment, aligning data, security, compliance and adoption.
- Lead a **30+ person matrixed team** across sales, engineering, customer success, support, services and global systems integrators.

Senior Account Executive, Enterprise Accounts | Microsoft | Apr 2011 – Jan 2017

- Delivered **$20M+ average annual revenue** across multinational enterprise customers.
- Led enterprise agreement renewals and expansions spanning Office 365, Azure and Dynamics.

Account Technology Strategist, Enterprise Accounts | Microsoft | Jul 2008 – Mar 2011

- Advised CIOs on infrastructure modernization, virtualization, collaboration and early cloud adoption.
- Drove adoption and value-realization programs supporting enterprise agreement renewals and expansion.

Partner Technology Strategist | Microsoft | Oct 2006 – Jul 2008

- Increased partner-influenced revenue by **150%** through go-to-market strategies with systems integrators and ISV partners.
- Enabled partner teams on the Microsoft platform to accelerate enterprise deployments.

IT Solutions Architect | Systematica Group | Jul 2005 – Oct 2006

- Led architecture and technical strategy for complex enterprise IT solutions in pre-sales.

IT Operations Manager / Team Lead | Allied Testing | Apr 2002 – Jul 2005

- Led **8 systems engineers**; automation and process improvements raised operational efficiency **25%**.
